

WEB VV – User License agreement

This license agreement is a contract between the user (as a legal entity) and VEGA (VEGA Grieshaber KG, Schiltach) for the software product

WEB-VV

When the user avails himself of WEB-VV with the access data, he agrees to the following provisions of this agreement and the in-house processing of his customer data. If the user does not agree to this, he must not use WEB-VV with the access data.

General

WEB-VV is a software that makes web-based measurement data available to the user. With the help of the access data, the user has direct access to these measurement data and, depending on the authorisation level, also the ability to make appropriate settings.

VEGA's services

VEGA provides the user with revocable, non-transferable personal access data for WEB-VV. VEGA reserves the right to change the access data for safety reasons in case of need. VEGA is not under obligation to maintain and update WEB-VV.

Duties of the user

The access data provided by VEGA must be kept secret. The user is solely responsible for all actions and measures that are carried out with these access data. VEGA must be given notice immediately if the name or the legal form of the specified company is changed. In such case, VEGA reserves the right to change the access data.

Access data

The user name and the password were drawn from the WEB-VV contact data.

The initial personal access data of the user are:

User name:	Password:
------------	-----------

The user name is not alterable. The password can be changed by the user any time via WEB-VV. After the signed license agreement has been returned, VEGA will enable access.

Liability

Despite careful control as regards content, VEGA assumes in particular no liability for how correct, complete and up-to-date of the software WEB-VV, inclusively in the context of any use of WEB-VV. Especially in case of any loss or falsification of data, no liability claims can be made. Moreover, this exclusion of liability also includes any damages and/or other disadvantages incurred by third parties due to possible misperformance of WEB-VV. VEGA also does not guarantee the correctness of the displayed measurements.

Other provisions

VEGA is entitled to terminate this license agreement any time within three months notice. This license agreement is exclusively subject to German law under exclusion of international civil law. If a provision of this license agreement is found to be void, all the other provisions will still remain valid. A void provision will thereupon be replaced by a legally effective provision, under the terms of which the economic interests of the parties are upheld in the best possible way.
